Part # 77132006
Dominator LED Chase Tail

GENERAL NOTES:

- These instructions are also available on our website: lazerstarlights.com. Please check our website before you begin installation for any updated instructions as well as additional photos for your reference.

PARTS LIST:

- (1) 77132005 (20" Single Row Multi-Function Light Bar)
- (2) Bottom Mounts
- (2) Side Mounts

Parts / Tools Needed to complete installation:

- 13mm Wrench
- 3mm Allen Wrench
- 5mm Allen Wrench

APPROXIMATE INSTALL TIME: 1 HR

INSTALLATION:

1. This light has 5 different functions:

   Red High, Red Low, Amber Left, Amber Right, and White

Depending on your application you can wire each of these functions separately or have them work together.

2. Black Wire = Ground
   Blue Wire = Left Amber
   Grey Wire = Right Amber
   Red Wire = White
   Yellow Wire = Red Low
   Green Wire = Red High

3. If you have pre-existing run, brake, turn, or reverse functions wired into your vehicle you can simply "tap" the corresponding wires into those functions. If you choose to "tap" into pre-existing wiring, no additional switches or fuses should be needed.

4. If you do not have preexisting wiring, you can wire each segment to a switch individually or in any combination you would like. An in-line 5 amp fuse is recommended for each function when wiring the segments this way.

Use and Care Tips:

- Keep all wires away from hot or moving parts.
- Always disconnect the battery when working with wiring.

Installation is Complete
