\* These instructions are also available on our website: [lazerstarlights.com](http://lazerstarlights.com). Please check our website before you begin installation for any updated instructions as well as additional photos for your reference.

### PARTS LIST:

\* (1) Complete Wire Harness

APPROXIMATE INSTALL TIME: 10 min – 20 min

### INSTALLATION:

- A) Relay*
- B) Lighted On Switch*
- C) Main Ground Lead*
- D) Main Power Lead*
- E) 30 Amp Fuse*
- F) Deutsch Connector*

1. Disconnect negative (-) battery terminal.
2. Mount Relay (Part A) to secure location away from hot or moving parts.
3. Route the 30 Amp Fuse (Part E) to battery and secure wire away from any hot or moving parts.
4. Route switch (Part B) to inside of vehicle.
  - a. Switch has 3M tape on the back – Make sure that the selected area is clean, oil free, and dry prior to sticking switch to desired surface.
5. Connect Main Power Lead (Part D) to positive (+) battery terminal.
6. Connect Main Ground Lead (Part C) to negative (-) battery terminal.
7. Connect Deutsch Connector (Part F) to light.
  - a. Please note the original wire lead is no longer needed.
8. Reconnect negative (-) battery terminal.
9. Test light and switch power.

## Installation is Complete

### Use and Care Tips:

- \* Keep all wires away from hot or moving parts.
- \* Always disconnect the battery when working with wiring.
- \* Periodically check connections and bolts to make sure they are tight.
