

INSTALLATION TIPS

VIZOR LIGHTS

1. There are two wires coming out of your Vizer Lights: 1 wire goes to a ground and 1 wire goes to a "hot" lead. It does not matter which is which.
2. To adjust the position of the Vizer, simply loosen the set screw on the bezel, rotate the Vizer to the desired position, push firmly on the face of the bezel and re-tighten the set screw. It is recommended you use Loctite "Blue" on the set screw.
3. When you have completed installation, it is necessary to seal the wires with silicone where they exit the bolt head.
4. For turn signals, wire your new Vizer Lights right into your existing wiring.
5. For driving or spot lights, a separate fused and switched circuit is recommended for the best performance.
6. If you wish to use your Vizer Lights as a "dual-element" (i.e. both running and turn) light our Taillight Converters are required. Please see the detailed instructions that come with the Taillight Converters.
7. A "Load Equalizer" may be required to make your turn signals function correctly. (Available brands: Badlands or Biketronics).
8. You may mount Vizer Lights to your FLS, and FLH Harley-Davidsons by ordering the "Diamond Bases" separately.
9. If you are having a problem with your Vizer Lights (such as lamp failure) please contact us **BEFORE** you attempt to disassemble or repair the light yourself. See warranty information for further details.

PRECAUTIONS:

All high powered lights create heat; the aluminum construction of your Vizer Lights is an excellent dissipater of heat. However, if you leave your lights on without proper air circulation (i.e. your vehicle is not moving) your lights **MAY BECOME HOT.**

USE EXTREME CAUTION during use.

Weekend Concepts will not be responsible for damage or injury due to negligence during use. Check the Vehicle Code laws in your state. Some states are more strict than others in regards to auxiliary lighting.

Weekend Concepts will not be responsible for any violations of the law whatsoever.

INSTALLATION TIPS

VIZOR LIGHTS

LIMITED WARRANTY AND RETURN PRIVILEGE:

All GOODS are warranted to be free from defects in workmanship for a period of thirty (30) days from the date of original purchase. In addition, Weekend Concepts warrants that all components of Vizor Lights are free from defects in workmanship for a period of ninety (90) days from the date of original purchase.

THIS WARRANTY IS VOID IF THE GOODS (Vizor Lights) ARE DAMAGED AS A RESULT OF DISASSEMBLY BY THE CUSTOMER (BUYER).

Weekend Concepts will not be responsible for damage or failure of any component due to misuse, abuse, acts of nature, accidents, and collisions, collision with flying debris, incorrect installation, alteration or modification of any type. We will also not be responsible for any damage to the light, cover or vehicle, incurred while negligently operating the lights with the covers affixed. This warranty does not cover any possible bodily injury and/or property damage incurred during installation or use of Vizor Lights. For a warranty claim call 1-800-624-6234.

Returns:

If you are not satisfied with Vizor Lights return them to your dealer, UNUSED and/or UNINSTALLED IN THEIR ORIGINAL PACKAGE. **See your dealer for their return policy.**

Weekend Concepts will not be responsible for any incoming shipping charges on warranty matters. Your original invoice (or a copy) is required for any warranty claim or return. Weekend Concepts reserves the right to amend or modify this policy at any time.
